Outsourcing Your IT

Guaranteeing Completeness, Compliance, Credibility and Confidence

Getting Started

How We Work

Our Focus

Our Clients

Information Technology (IT) has become a corner stone to the way forward for any business. Softiris specializes in creating guidelines for integrating business processes, protecting the technology that supports those processes, implementing and maintaining those IT systems and transferring technology and knowledge to clients' organization.

Our primary aim is to provide an IT Support Service Framework to support your company's business by enabling all operational departments have the necessary IT tools, resources and equipment to efficiently and effectively manage their respective business needs

What we want to do for you

- To manage, maintain and ensure a 99.9% uptime of your IT systems
- Implement best practices and ensure compliance with industry standards
- Develop and implement procedures for IT Administration, IT Assets Management, IT Training & Support and IT Security & Disaster Recovery
- Setup systems that guarantee information security, reassuring your stakeholders, customers and employees of your commitment to protecting their privacy and valuable information
- Facilitate efficient transfer of IT skills and knowledge to your organization

Turn-Key IT - Just hit 'Start' button

Although the need for IT is not new, the desired outcome has evolved

Getting Started

How We Work

Our Focus

Our Clients

We've made it really easy...

You focus on your core business while we focus on your IT.

For a monthly retainer fee, We keep your systems working, ensure security and compliance, help develop and implement IT Policies and Procedures to guide your operations

Service Delivery

We use our extensive set of management procedures to support your business across the breadth of available IT infrastructure, development, and operations.

Infrastructure includes the network, client desktops, servers, and printers. We are well equipped to manage the same with our ability to manage certified technicians to keep your equipment up and running.

Procedures and Policies

We bring our expertise to bear by helping you prepare and implement corporate procedures and policies for:

- IT Administration
- IT Assets Management
- IT Training and Support
- IT Security and Disaster Recovery

Turn Key IT - Just hit 'Start' button

Our aim is to simplify your life and interaction with IT. We make sure it works - all the time. All you need do is "Turn it ON"
